- English A1

Olga Grishchenko

Frontend developer (junior)

About me:

As a former event planner, I love challenges - and frontend development sounds like a great one.

Event planning experience made me a team player, taught me to work under strict deadlines and search for unexpected solutions. And I feel that these skills should help me become an outstanding frontend developer, along with lots of hard work of course.

In my spare time, I enjoy travelling as every trip is a new exciting challenge.

Work experience

December 2022 - now

Frontend developer (trainee)

LET ME Design and Development LTD

As a top-3 student, I was invited to an internship to work in an ongoing project for Project and Client Management Application development.

Responsibilities:

- Participated in the creation of pages and components
- Learning new React libraries: Ant Design, International Telephone Input, React Table

April 2022 - January 2023

Frontend developer (graduate)

TeachMeSkills

Skills:

- Knowledge of Git
- Cross-browser and adaptive layout on HTML/CSS/SCSS
- Knowledge of JavaScript
- Development experience in React: Apisauce, Redux Toolkit, Redux-Saga
- Confident knowledge of TypeScript.

Within the training courses I created several apps:

- Pixema

Stack: JavaScript, TypeScript, React, Redux, Redux-Saga, Apisauce; Used TypeScript for best code control; Deploying.

- ActiveBox (layout) [Link to GitHub](#), AXIT (layout) [Link to GitHub](#)

2015 - 2022

Wedding Planner, Founder

WeddinGo Agency

Results:

- Built a business from scratch
- Planned and coordinated 30-40 events annually - weddings, family events, fashion shows both in and outside of Belarus
- As part of the business, I created a school for event coordinators and mentored new event planners
